

# 2019 VFBV Volunteer Survey Results

## ABOUT VFBV

Volunteer Fire Brigades Victoria (VFBV) is the CFA Volunteer peak body and volunteer association established under the Country Fire Authority Act to represent CFA volunteers on all matters that affect their welfare and efficiency.

VFBV is an independent association, operating autonomously from CFA but at the same time working closely with CFA and other key stakeholders to engage volunteers in CFA and other deliberations and provide advice on all matters affecting them. VFBV works tirelessly to represent, advocate and support CFA volunteers to the CFA Board and management, governments, ministers, members of parliament, councils, instrumentalities, business and the public.

## OUR VISION

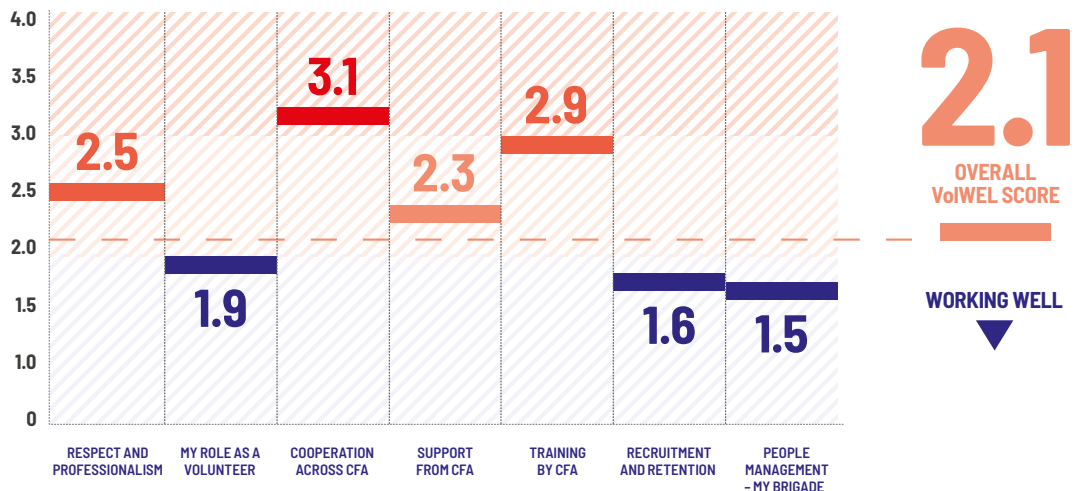

Strong Volunteerism, Embraced to Build Community Resilience for a Safer Victoria.

## THE VOLUNTEER WELFARE AND EFFICIENCY SURVEY

The VFBV Volunteer Welfare and Efficiency Survey is an initiative by VFBV, designed by and for volunteers to help capture and communicate fundamental issues as volunteers see them. It is conducted annually, with the first survey conducted in 2012. The Volunteer Welfare and Efficiency Survey is a critical and important tool that gives CFA and other decision makers clear feedback, directly from volunteers about the issues that are affecting their welfare and efficiency.

The survey measures CFA volunteer attitudes of the importance of each particular factor and their corresponding view of performance. The gap between how closely performance meets the expectation of importance is referred to as the Volunteer Welfare and Efficiency Level (VoIWEL) outcome. A high VoIWEL outcome is a sign that things are not working well, while a low VoIWEL is a sign that things are working well. Any VoIWEL over 2.0 indicates a large to critical gap is emerging and volunteers are highly dissatisfied with arrangements requiring priority attention. Movements of 0.05 are considered an indicator of true movement.

## VOLUNTEER WELFARE & EFFICIENCY LEVEL (VoIwEL) DESCRIPTIONS

<b>&gt;3.0</b>	<b>Critical need for priority attention</b>	A Gap of 3.0 or more indicates that there is a critical gap between volunteer expectations and performance and volunteers are highly dissatisfied. Priority attention is needed.
<b>2.5 – 2.9</b>	<b>Significant Gap – immediate attention required</b>	A Gap between 2.5 and 2.9 indicates there are significant issues that need to be addressed. Immediate action should be put in place to rectify areas of concern.
<b>2.0 – 2.4</b>	<b>Large Gap – remedial action to be taken</b>	A Gap between 2.0 and 2.4 indicates these issues are impacting volunteer welfare and efficiency and will be causing dissatisfaction with the volunteering experience. Action to address volunteer concerns should be implemented.
<b>1.5 – 1.9</b>	<b>Mid-range Gap – need for improvement</b>	A Gap between 1.5 and 1.9 indicates that volunteer expectations are not being met and should be addressed in both action and strategic plans, in the shorter term. Volunteers are indicating lower levels of satisfaction.
<b>1.0 – 1.4</b>	<b>Small Gap – potential for improvement</b>	A Gap between 1.0 and 1.4 indicates longer term planning should include addressing volunteer concerns. Volunteers are reasonably satisfied.
<b>0 – 0.9</b>	<b>Meeting Expectations</b>	A Gap of less than 1.0 indicates that on the whole, volunteer expectations are being met. These results would be evidence of high levels of satisfaction.
